

VC5.0

The VC5.0 is the pocket rocket of the fleet; its unique wave piercing bow and extended running surfaces eat inshore chop for breakfast, and it is just as happy battling it out with the big boys offshore. The asymmetric catamaran configuration makes the vessel incredibly stable and creates a sensation similar to cornering on rails!

All Vapor Cats are built from vacuum infused composites with multi-axial fibres and foam cores. No wood is used in any part of the construction. Transom and running surfaces are solid laminate with other areas using multi-axials over PVC closed-cell foam core to produce a vessel that is low weight and high strength.

VC5.0

The VC 5.0 features a spacious centre console layout, economical single-engine, built-in fuel tank, and seating for 5. Fitted with foam flotation, it complies with all Australian recreational standards for engines up to 140hp.

SAFETY

- Australian Standard 1799 compliant
- ABP Safety Standards
- Inbuilt buoyancy foam for upright flotation
- Navigations Lights
- Self-draining cockpit

SPECIFICATIONS

Length	5.0m
External Beam	2.3m
Internal Beam	1.9m
Deadrise	20deg
Maximum Adults	5
Configuration	Centre Console
HP Range	Single 70hp to 140hp
Leg Length	25"
Fuel Tank	130L

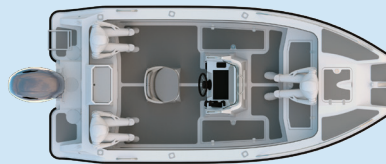

Vacuum infused advanced composite construction hull and deck

Hull construction features:

- vinyl ester resin
- solid running surfaces
- foam cored topsides
- multi-axial fabrics used throughout

Dry Hull Weight	600kg (no engine)
Tow Weight	1350kg fully fueled

STANDARD INCLUSIONS

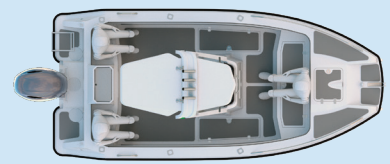

- 90hp Yamaha four stroke outboard
- Standard engine gauges
- Drive on galvanised trailer
- Centre console with windscreen
- Hydraulic steering
- Pivoting helm seat
- Twin bilge pumps
- Internal fuel tank
- Stern boarding ladder
- Anchor & warp

Lockers:

- Anchor
- Built in esky fwd
- Twin under deck
- Helm console
- Aft seats each side

OPTIONAL FEATURES

- Larger engine up to 140hp
- Twin battery
- VHF
- Marine Stereo
- MFD display
- Composite arch
- Composite hardtop
- T-top roof
- Hull wrap
- Synthetic flooring
- Gunnel rod holders x 6
- Rocket launcher rod holders x 4
- Anchor winch
- 60L live bait tank and fillet station
- Tackle storage locker
- Alloy braked drive on trailer
